[From the New Haven Palladium, Aug. 14. About twelve months ago Ric' ard Waite whose relatives reside in Bradley street, led to the hymeneal altar, before a large assemblage of friends, at the George street Meth-cuist Church, Miss Jennie Githings, of Lafayette street. Richard bad been generally regarded as a gay Lothario, to the sorrow of his relatives, and the marriage took place in opposition to the bride's friends; but strong love had seemingly bound its silken cord firmly around him, and for six or eight months, it is said, he lived happily with the charming woman, who notwithstanding the reports which Dame Rumor had whispered herears, had consented to be his wife. But at the end of that period, a change came over the spirit of their dreams. For some reason, hitherto kept very secret, the once happy wife determined to sever the ties cut it is-luckily for mismated coupleseasy to obtain a divorce, and some three months ago the court decreed them no longer man and wife. The lady returned to her friends and the gay Richard returned to the pursuits which he had fellowed in his bachelorhood. It is understood that Mrs. Waite's relatives were mainly instrumental in se-curing the separation, and that her consent was only obtained after continued, persistant urging on their part. It is easy to sep-arate the bodies, but to divorce two loving hearts is quite a different matter. After their separation, it would seem that only till then did they know howstrong had been their affection for each other, By degrees they became intimate as of yore, indulging it the same moonlight walks, and passing through a second courtship as earnestly as they did the first. A second marriage was talked of, but the lady's friends interposed own hands, firmly believing that cruel and ses over institutions of a similar grade. hard-hearted fathers and mothers have no Its location is healthy, and within a few right to keep assunder two hearts which hundred yards of a depot. night they took the steamer Continental for pair, and are rent free. They are both very respectably connected, and their best friends spectably connected, and their best friends partment, hope their second search for wedded bliss Fuel fee, scholastic year, will be more successful than the first. Poisened by a Fly.

A SINGULAR CASE.

From the Troy (N. Y.) Press. We regret that Capt. Green, deputy inspector of boilers and assistant engineer of the fire department, is still confined to his room with a very bad arm. About a fornight ago he was on the cars going to cially, and parents and guardians in sur-Whitehall, when he was bitten on his right hand, between the thumb and index finger, by an insect which entered the carriage, and he soon experienced considerable pain, which gradually increased. He showed his hand to a druggist, who told him that the pain was probably caused by a mosquito bite, and painted the A First Class Boarding School for wound with Iodine. It increased to such an extent, however, that the captain consulted a physician, who, too, believing it to be an ordinary mosquito bite, treated it accordingly. The arm and hand mean- 12 miles from Shuqualak Station, Mobile while swelled to such an alarming extent that it was considered judicious to take sulted, and is of opinion that the wound different places. Scrofula, or King's Evil, weak, and poor. Being in the circulation, pervades the whole body, and may burst on in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scroulous taint is variously caused by mercurial disease, low living, dis-ordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the con-stitution, descending "from parents to children unto the third and fourth generation;" indeed

t seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, craptions or sores. This foul cor-ruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous com plaints, but they have far less power to with-stand the attacks of other diseases; conse-quently vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which de-cimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or

blood, by which this fluid

are aggravated by the same cause. One quarter of all our people are scrofulous; their persons are invaded by this lurking in-fection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

Compound Extract of Sarsaparilla, the most effectual remedy which the medical skill of our times can devise for this every-where prevailing and fatal malady. It is com-bined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences.

Hence it should be employed for the cure of not only Scrofula, but also those other affections which arise from it, such as Energive and Skin Diseases, St. Anthony's Fine, Rose, or Eurstpelas, Pimples, Pustules, BLOTCHES, BLAINS and BOILS, TUNORS, TETTER and SALT RHEEK, SCALD HEAD, RINGWORM, RHEUMANISM, SYPHILITIC and MERCURIAL DIS-EASES, DROPSY, DYSPERSIA, DEBILITY, and indeed, all Complaints arising from Vitta-TED OR IMPURE BLOOD. The popular belief in "impurity of the blood" is founded in truth, for scrofula is a degeneration of the blood. The

AYER'S Ague Cure,

Intermittent Fever, or Fever and Ague, Remittent Fever, Chill Fever, Dumb Ague, Feriodical Hendache, or Billous Headache, and Billous Fevers, indeed for the whole class of diseases originat-ing in biliary derangement, caused by the Malaria of Miasmatic Countries.

We are enabled here to offer the community a remedy which, while it cures the above complaints with certainty, is still perfectly harmless in any quantity. Such a remedy is invaluable in districts where these afflicting disorders prevail. This "Cure" expels the miasmatic poison of Faver AND AGUE from the system, and prevents the development of the disease of them. velopment of the disease, if taken on the first ap of complaints, but also the cheapest. The large quantity we supply for a dollar brings it within the reach of every body; and in bilious districts, where FEVER AND AGUE prevails, every body should have it and use it freely both for our and protection. A great superiority of this femedy over any other ever discovered for the speedy and certain cure of Intermittents is that it contains no Quinine or mineral, consequently it produces no quinism or

or mineral, consequently it produces no quintem or other injurious effects whatever upon the constitution. Those cured by it are left as healthy as if they had never had the disease.

Fever and Ague is not alone the consequence of the miasmatic poison. A great variety of disorders arise from its irritation, among which are Neuralgia, likeumatism, Gout, Headache, Blindness, Toothache, Earache, Catarrh, Asthma, Palestation, Pauful Affection of the Spleen, Husterpitation, Painful Affection of the Spleen, Hysteries, Pain in the Bowels, Colic, Paralysis and Derangement of the Stomach, all of which, when originating in this cause, put on the intermittent tupe, or become periodical. This "CURE" expels the poison from the blood, and consequently cures them all alike. It is an invaluable protection to immigrants and persons travelling or temporarily residing in the malarious districts. If taken occasionally or daily while exposed to the infection, that will be excreted from the system, and cannot accumulate in sufficient quantity to ripen into discase. Hence it is even more valuable for protec-tion than cure, and few will ever suffer from Inter-mittents if they avail themselves of the protection

CIRCULAR SAWS With Movable or Inserted Teeth. We claim for our Patent Circular Saw the ollowing advantages over all others: The shanks of the teeth are clastic, and exert a uniform distension in the sockets. The stability of the plate is in no way affected by inserting new sets of teeth. Each tooth, independently, may be adjusted to the cutting line. No rivets, keys, or other objectionable appliances are employed in connection with tion, and as easily used as a nut for a bolt, In short, all the difficulties heretofore ex-

saws, are fully met and obviated by this in-TUTTLE PATENT "Champion" Cross-Cut Saws; Cross-Cut Saws of all kinds. Saw Mandrels, Cumming Machines, &c.
